Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 3-6, 8-24, 27, 28, 30-33, 35-39, 42, 43, 44, drawn to a flow control method, classified in class 370, subclass 229.
 - II. Claim 40, drawn to a method for arbitration by using a probe cell, classified in class 370, subclass 462.
 - III. Claim 41, drawn to an apparatus for spraying a data request, classified in class 370, subclass 395.31.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, inventions I, II, III have separate utility such as the followings: Invention I has separate utility of performing data packet flow control; Invention II has separate utility of arbitrating data cells by using a probe cell; Invention III has separate utility of spraying a data request uniformly across a plurality of output ports. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II, III, restriction for examination purposes as indicated is proper.

Art Unit: 2667

5. A telephone call was made to Richard Irving on 10/5/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kwang B. Yao whose telephone number is 571-272-3182. The examiner can normally be reached on M-F.
